

Letterhead of PetroChina Foreign Cooperation Administration Department

Re: Appreciation Letter to Roc regarding Roc's Expert attending PetroChina's
"Enhancing single well daily rate Techniques Forum"

Dear Mr. Ronald Morris,

PetroChina held its "Enhancing Single Well Daily Rate Techniques Forum" on Dec.3 & 4, 2009 in Beijing and Roc showed its great support to it. The presentation of "Drilling Techniques Applications in Zhao Dong Project" made by Mr. Robert Hill from Roc received ovation and was highly praised by the forum attendees. His report has produced aggressive influence on strengthening technical exchange between PetroChina and its foreign partners, facilitating popularization and application of new techniques and deepening the friendly cooperation. Therefore, I would like to represent CCAD to extend my sincere appreciation to you.
