

Ivan Awuy
Drilling Engineer

Nationality: Indonesian
Education: BS/MS – Petr Engr
1990/92

QUALIFICATIONS AND EXPERTISE:

- Engineering skills developed as part of drilling team with Maxus Indonesia and hands on operation experience
- Innovative and willing to test new ideas, techniques, and technology with successful results
- Experience in drilling/completion operations including expandable technology and ESP operations
- Excellent team player and willingness to work with multiple disciplines and cultures
- Excellent computer skills relative to drilling engineering
- Good background in completion/work-over and intervention operations
- Languages : English. Bahasa Indonesian

During the 5 years with DMI on the Murphy Malaysia development project provided detailed engineering plans for successful batch drilling operations.

RECENT ACHIEVEMENTS AND CAREER HIGHLIGHTS:

Drilling and completion engineer for DMI managed project for Murphy Malaysia:

- Part of the DMI team that achieved the highest performance for offshore drilling in Malaysia and SE Asia.
- Planned and prepared very successful extended reach drilling and completion program.
- Team leader for drilling systems (bits, BHA's, LWD, etc) with focus on quality and performance.
- Implemented additional new ideas and techniques including casing drilling, slim hole drilling,
- Excellent skills regarding drilling and service contracts

Developed engineering/operation skills with Maxus Indonesia

- Worked as rig supervisor on work-over operations and drilling operations in the Java Sea. Gained experience in extended reach, horizontal drilling, and multi-lateral completions.
- Maxus Indonesia was regarded as one of the most efficient drilling operations in SE Asia. This operation typically uses 3-4 jackups and 3-4 work-over rigs to drill in excess of 100+ extended reach wells per year. The focus was on high performance with continuous improvement.
- Part of a multi-disciplinary team that worked on saturation drilling techniques for exploration and appraisal utilizing slim hole drilling and casing drilling.

EXPERIENCE SUMMARY: 14 years drilling and completion engineering

<u>Position</u>	<u>Years</u>	<u>Company and/or Clients</u>
Drilling and Completion Engineer	5	DMI – Murphy Malaysia
Deepwater Drilling Engineer	1	Maxus YPF - Malaysia
Drilling Engineer	8	Maxus- YPF Indonesia
