

**Huey Paul Campbell (Paul)
Drilling Supervisor**

Date of Birth: 30 August 1953

Nationality: USA

**Education: College 3 years,
Industry Experience and Schools**

QUALIFICATIONS AND EXPERTISE:

- Excellent knowledge of rigs, components, equipment, and maintenance requirements
- Extremely conscientious of performance while maintaining safe work environment
- Experienced on Barge rigs, Jack-ups, land rigs, submersibles and platform rigs
- Developing quickly as a drilling and completion supervisor – excellent willingness to learn
- Licensed OIM for MODU rigs

2 years with DMI as a drilling supervisor on operations that requires extremely close supervision in difficult operating environments.

RECENT ACHIEVEMENTS AND CAREER HIGHLIGHTS:

A member of the DMI team for ROC Oil China since 2007 that achieved excellent results:

- Primarily drilled difficult highly deviated wells completed with multi zone frac packs
- Maintained high performance standards for China offshore operations per benchmarking analysis
- Established the highest ever performance level for drilling operations in Bohai Bay during the 2009 drilling campaign

Over 30 years of experience working on rigs, the majority in USA, Middle East and Asia

While working for a drilling contractor set, at that time, a record for a well drilled during operations in Thailand for Unocal, from spud to TD, well over an average of 5,000 FPD. Also set some country records for high performance, cost effective, drilling and completion that still stands in Malaysia for Operator Murphy Oil that was under the management of the DMI team.

Developed an excellent knowledge and understanding of all rig related equipment, procedures, and problem solving techniques.
