

Sandy Chiew Chee Siong
Fluids Specialist / Supervisor

Date of Birth: 24 August 1981
Nationality: Brunei
Education: University degree

QUALIFICATIONS AND EXPERTISE:

- Background as a mud engineer in various fluid systems including:
 - Dispersed water base systems
 - Non dispersed and polymer mud systems
 - Drill In Fluids
 - Completion Brines
 - Synthetic and oil based mud
- Knowledge of various solids control, cuttings re-injection, and filtration systems
- Excellent attitude and willingness to deliver results
- Responsible for total fluids management, supervision, and technical expertise
- Proficient in English, Malay, Indonesian, and Mandarin (Chinese)

Prior to joining DMI, Sandy worked for Halliburton Baroid as a mud engineer. He began working on the Roc Oil Bohai program in 2007 reporting to the DMI Fluids Supervisors. Sandy showed excellent progress and ability to run the mud systems. Coupled with his fluency in Chinese, relationship with the DMI drilling team, and strong work ethic, DMI decided to promote him to a Fluids Supervisor for the Roc Bohai project in 2010.

DMI considers the management of the drilling and completion fluids as a vital role in obtaining high performance operations. Recruiting, hiring, and retaining people like Sandy is critical to DMI’s ability to continue to deliver top quartile results.

RECENT ACHIEVEMENTS AND CAREER HIGHLIGHTS:

Served as a mud engineer on the high performance Roc Oil Bohai China project from 2007 through 2009

- Responsible for various technical aspects of daily fluids and solids control management.
- Roc Oil Bohai China drilling teams have achieved the best performance relative to cost per meter and meters per day for normal development operations in Asia and throughout the world.

Seven year of industry experience as a drilling fluids engineer with knowledge of solids control systems, water treatment, and waste management.

EXPERIENCE SUMMARY:

<u>Position</u>	<u>Years</u>	<u>Company and/or Clients</u>
Fluids Supervisor	0	DMI – Roc Oil Bohai China
Fluids Engineer	7	Halliburton Baroid –Brunei, Thailand, China, Japan, PNG, and New Zealand,
