

Paul G. Colyer
Drilling Project Manager

Date of Birth: 29 November 1949

Nationality: British

Degree: MS – Petroleum Engr

QUALIFICATIONS AND EXPERTISE:

- Project manager for deep water and remote areas with focus on detailed planning of all aspects including well design and planning, logistics, contracting, and operations execution
- Extensive and varied experience in many locations for exploration drilling
- Noted within the industry for competency relative to deep water exploration and project management of exploration programs
- Ability to meet aggressive deadlines and achieve positive results
- Experienced in development project evaluation and design

8 years with DMI as a project manager primarily on difficult and unique exploration drilling projects.

RECENT ACHIEVEMENTS AND CAREER HIGHLIGHTS:

Served as Project Manager for various clients of DMI:

- Eight different exploration drilling programs typically requiring less than 1 year start to finish.
- Every project completed below the budget established by the client company.
- Full date recovery on every project, no major incidents or accidents.
- Supervised construction of a CPF facility for sour crude.
- Set up the entire project from establishment of the shore base, preparation of contracts, detailed engineering and operational plans, management of drilling and testing operations
- Operations conducted in Gabon, Somalia, Indonesia, Egypt, Tunisia, Yemen, Myanmar, Malaysia, and South Africa

Served as Occidental Petroleum single string Operations and Drilling Manager on various projects:

- Operations Manager for the Malampaya Joint Venture development project in the Philippines
- Managed the drilling, procurement, logistics, construction and accounting personnel on various operations in over 16 different countries from 1975 through 1992
- Consistently delivered wells under budget, within the deadline, and with minimal trouble
