

**Stuart Duncan**  
**Drilling Supervisor**

**Date of Birth: 17 October 1959**  
**Nationality: UK**  
**Education: Industry Experience and Schools**

**QUALIFICATIONS AND EXPERTISE:**

- Excellent knowledge of rigs, components, equipment, and maintenance requirements
- Extremely conscientious of performance while maintaining safe work environment
- Very experienced on extended reach and HPHT wells
- Developing skills very quickly as a competent drilling and completion supervisor
- Excellent willingness to learn and adapt different techniques to achieve higher standards
- Good understanding of drilling reporting software and good computer skills

2 years with DMI as a drilling supervisor on operations that requires extremely close supervision in difficult operating environments.

**RECENT ACHIEVEMENTS AND CAREER HIGHLIGHTS:**

A member of the DMI team for Roc Oil Bohai since 2007 that achieved excellent results:

- Performed the duties of a lead rig toolpusher to ensure safe and efficient operations with a Chinese drilling rig
- Part of the team that has consistently achieved the highest standard for all operators working in China offshore development operations
- The 2009 performance averaged 355 meters per day (meters drilled divided by total rig time from move on until last bit pulled out of hole) – No other operator has averaged over 200 meters per day in the same area of operation on an annual basis.
- Thorough planning with dedicated rig supervision is the key to the performance of the team
- HSE is maintained to the highest western standards, and takes extreme diligence to ensure operations are conducted safely and efficiently

Over 30 years of rig related experience primarily as a driller or toolpusher working on rigs throughout the world, including land, platform, and jackup rigs. This has provided excellent knowledge and understanding of all rig related equipment, procedures, and problem solving techniques.

**EXPERIENCE SUMMARY:** Has worked as a drilling supervisor the last 2 years and distinguished himself for ability to learn, communicate, and lead the drilling and completion processes on the rig:

| <u>Position</u>                 | <u>Years</u> | <u>Company and/or Clients</u>  |
|---------------------------------|--------------|--|
| Drilling Supervisor             | 2            | DMI – Roc Oil Bohai (China)  |
| Lead Toolpusher                 | 1            | Trainor Asia – Roc Oil Bohai (China)                                 |
| Toolpusher                      | 5            | Various Drilling Contractors primarily in remote locations worldwide |
| Toolpusher / Driller / Rig Hand | 23           | Transworld and Smedvig – primarily North Sea                         |
